Claims 35-39, 41-47 and 55-59 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the closest prior art of record (Sharkey et al US 5540701) requires a resectoscope or other suitable instrument to grab the proximal end of the urethral stent for removal rather than a continuing segment extending from the proximal anchor and extending out of the body while the urethral stent is implanted.
